

Always delivering an amazing experience

Fast, easy and to your door

Our ecosystem

We're on a ride to deliver anything. Using our platform for good, we serve and support our global ecosystem of customers, riders and partners.

Our growth

In H1 2022, we generated over 20 billion GMV. That's an increase of +24% YoY.

Our Heroes

We have more than +53k employees globally. Our HQ in Berlin houses over 2.9k Heroes.

Our footprint

We operate in 70+ markets across the globe with 1.4 million riders, 1.5 million partners and 10+ tech hubs.

Our growth in numbers

During the third quarter of 2022, Delivery Hero's Gross Merchandise Value (GMV) increased 12% YoY (6% QoQ) to EUR 11.45 billion, of which the GMV of all segments outside of Asia grew over 30% YoY combined, and Total Segment Revenue increased 28% YoY to EUR 2.5 billion.

How we operate

Advanced algorithms ensures a smooth and personalized experience.

Innovative logistics allow for an amazing order process.

A strong fleet of 1.4 million riders is the beating heart of our business.

Our average delivery time is 28 minutes. Quick commerce orders can be as fast as 7 minutes.

Quick commerce at a glance

Quick commerce (q-commerce) is the next generation of e-commerce. As speed and convenience become more important to customers, q-commerce delivers small quantities of goods to customers almost instantly. Beyond food, we deliver products like medicine, electronics, and other household goods. Delivery Hero partners with a network of local shops and operates Dmarts (small local warehouses) that are optimized for delivery.
